**ATLANTIC
BOILERS**
HIGH EFFICIENCY CONDENSING BOILER-PLANT

A-YO SERIES

ELECTRIC STEAM BOILER

316L stainless steel electrical heater tubes

Carbon or stainless steel with 50mm thick thermal insulation

Pressure guage, steam valve, safety valve drain valve accessories

Intelligent digital controller

1000 litres fully automatic water softener

Steam header: 1500mm long x 219mm diameter

2000litres cold water feed storage

CE CERTIFICATION – GB150:2011. TSG G0001-2012
GB/T16508-2013 to Directive 97/23/EC (Pressure Directive)

A-YO SERIES

ELECTRIC STEAM BOILER

Model: YO.540kW

Water Softener

Softened water treatment reduces boiler scaling and increases length of life

Water softener – rated at 1,000 litres output per hour
 Fully automatic control
 Re-generative type with reverse flow
 Water hardness reduced to less than 0.03mm
 240volts single phase, 50Hz

Control panel

The electric steam boiler is electronically controlled and the state of operation is shown on the screen

- Boiler water level control & safety
- Steam flow temperature
- Steam flow pressure
- Water feed pump flow, fault & alarm
- Manual over-ride
- Operation of safety devices

A-YO ELECTRIC BOILER STEAM GENERATING TUBE

316L stainless steel flanged electric heating pipe
 High-temperature magnesium oxide seal
 Immersion heater rated at less than 11watts/cm2
 Electrical supply at 415Volts, 3phase, 50Hz
